INDEPENDENT AUDITOR'S REPORT

To the Audit Committee Hillside Family of Agencies

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Hillside Family of Agencies and its affiliated entities (the "System"), which comprise the consolidated statements of financial position as of June 30, 2019 and 2018, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Hillside Family of Agencies and its affiliated entities as of June 30, 2019 and 2018, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter Regarding Adoption of New Accounting Standard

As discussed in Note 1 to the consolidated financial statements, the System retrospectively adopted new accounting guidance in Accounting Standards Update ASU 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities* during the year ended June 30, 2019. Our opinion is not modified with respect to this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies

Organization:

Hillside Family of Agencies (the "Corporation") and its affiliates (collectively, the "System") constitute a comprehensive system of care, offering mental health, social services, developmental disability, youth development, adoption, and educational services in New York and Maryland. The Corporation is a not-for-profit corporation that reviews and monitors the missions, objectives, activities, and resources of its affiliates for the purpose of promoting efficient, effective, and economical social, educational, and mental health services to children, youth, and families in its service area. It is the sole corporate member of the following entities:

- Hillside Children's Center (the "Center")
- Hillside Children's Foundation (the "Foundation")
- Hillside Work-Scholarship Connection
- Snell Farm Children's Center
- Stillwater Children's Center

A summary of the System's significant accounting policies follows:

Basis of presentation:

The accompanying consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The consolidated financial statements include the accounts of the System, as described above. All significant interaffiliate balances and transactions have been eliminated.

Accounting changes:

During 2019, the System adopted Accounting Standards Update (ASU) No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*. This ASU requires various modifications to the current financial statement presentation in order to make information more useful for the users of the financial statements. Key changes that impact the System include expanded disclosures regarding donor restrictions and board designations of net assets; reducing the net asset classifications from three to two; and liquidity disclosure requirements. This accounting change was applied on a retrospective basis. The following table presents the June 30, 2018 balances of net assets, as previously reported and as revised for adoption of this ASU:

As Previously R	eported	As Revised			
Unrestricted	\$ 27,781,384	Without donor restrictions:			
Temporarily restricted	14,268,157	Board designated	\$ 4,714,623		
Permanently restricted	4,706,457	Undesignated	34,816,832		
		With donor restrictions	7,224,543		
Total net assets	\$ 46,755,998	Total net assets	\$ 46,755,998		

The revised presentation includes all net assets previously reported as permanently restricted as net assets with donor restriction. Net assets previously reported as temporarily restricted were classified with or without donor restrictions based on the nature of the restriction (donor or otherwise).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Accounting changes (continued):

The consolidated financial statements as previously reported for the year ended June 30, 2018 presented net assets released from donor restrictions of \$9,526,072. As revised, net assets released from donor restrictions were \$446,126 for the year ended June 30, 2018.

Cash:

The System maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The System has not experienced any losses in such accounts. The System believes it is not exposed to any significant credit risk on cash.

Restricted assets held in trust:

This balance represents cash and cash equivalents which are limited to use under terms of debt indentures for debt service payments.

Receivables:

Receivables for program services provided are recorded at the amount the System expects to be reimbursed based on approved reimbursement rates in place at the time the service is provided, as described under the revenue recognition policy. Pledges are recorded as receivables in the year made at the original pledge amount less an estimate made for uncollectible pledges. Management evaluates if accounts receivable are collectible on an annual basis and adjusts for uncollectible amounts through an allowance for doubtful accounts. Recoveries of amounts previously written off are recorded as revenue at the time such amounts are collected. At June 30, 2019 and 2018, the System's receivables consisted of net program-related receivables of \$25,955,017 and \$23,967,363, respectively, and net pledges receivable of \$276,406 and \$-0-, respectively. Receivables are presented net of allowances for doubtful accounts and discounts of \$516,700 and \$482,239 at June 30, 2019 and 2018, respectively.

Beneficial interest in trusts:

The System is the beneficiary of an interest in various trusts which were created at the direction of the donors and are controlled by independent trustees. The System records its interest in these trusts, upon discovery of their existence, at fair value of the trusts' assets, which is determined by the investment statements held by the trusts. Because of the complex issues related to collecting the data for these transactions, there can be a time delay in recording of the assets because of the time needed for discovery, verification of the System's rights, and the determination of the fair value.

The original fair value, subsequent annual changes in fair value, and distributions received are recorded within the two classifications of net assets (net assets with donor restrictions and net assets without donor restrictions) following the original intent of the donors and instructions received from the trustees. The value of the interest in the trusts is included within investments in the accompanying consolidated statements of financial position. The change in the value of the trusts and receipt of distributions of earnings are reported as a component of investment income in the accompanying consolidated statements of activities and changes in net assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the System has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability; and
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Certain assets are valued at net asset value (NAV) per share and these are not included in the fair value hierarchy.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at June 30, 2019 and 2018.

Cash and Cash Equivalents – The carrying amount of cash and cash equivalents approximates fair value because of the short maturity of those instruments.

Debt Securities – These are valued at estimated fair value as determined by third-party pricing services and qualified appraisers.

Mutual Funds – Mutual funds with registered investment companies, including The Investment Fund for Foundations (TIFF) fund, are valued at the daily closing price as reported by the fund. Mutual funds held by the System and Defined Benefit Plan are openend mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Defined Benefit Plan, except for money market funds, are deemed to be actively traded.

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Fair value measurements (continued):

Mutual Funds (continued) – Money market funds generally transact at \$1.00 NAV as reported by the fund and is based on the amortized cost of the underlying securities of the fund. The \$1.00 NAV is considered to be the price to sell the money market funds and its estimated fair value. Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets.

Beneficial Interest in Trusts – These are valued at an estimated fair value of the trusts' assets, as reported by each trustee based on the underlying investments held within each of the trust accounts.

Derivative Instruments – The System's interest rate swap agreements are stated at fair value, calculated at the difference of the present value of future cash flows of the two interest rates (variable rate swapped at a fixed rate) that were swapped, and represents the estimated amount that the System would expect to pay or collect if it terminated the interest rate swap agreement at the reporting date.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the System believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Captive insurance program:

The System has insurance coverage with commercial insurance companies for general and professional liabilities up to \$1 million and an umbrella policy for an additional \$1 million. The System is also a subscriber in a captive insurance arrangement with a risk retention group, which provides coverage for losses between \$2 million and \$40 million. The System was required to make capital contributions to the risk retention group upon execution of its membership agreement, and the amount is recorded in a paid-in surplus account. The subscriber savings account also includes the System's proportionate share of costs, expenses and fees, including reinsurance, paid losses, case reserves, claims incurred but not reported, allocated shared losses, the System's proportionate share of investment income/loss, dividends paid to the System, and allocated gains/losses from former subscribers. The System's subscriber savings account and paid-in surplus account balance amounted to \$2,476,000 and \$2,376,000 as of June 30, 2019 and 2018, respectively, and is presented within prepaid expenses and other assets in the accompanying consolidated statements of financial position. Changes in the account balance are recorded in miscellaneous other operating income in the accompanying consolidated statements of activities and changes in net assets. Premiums paid by the System for each policy year are recorded in management and general expense. Insurance expense relating to the captive insurance program amounted to \$347,000 and \$354,000 at June 30, 2019 and 2018, respectively.

Property and equipment and accumulated depreciation:

Land, buildings and equipment are recorded at cost if purchased or at fair value if donated. Depreciation is provided on a straight-line basis over the following estimated useful lives:

	<u>Y ears</u>
Buildings	40
Building and land improvements	20
Leasehold improvements	3 - 15
Furniture, fixtures and equipment	4 - 10
Vehicles	4

Fully depreciated assets are retained in the accounting records until their retirement. Repairs and maintenance are expensed as incurred.

Improvements to leased property are amortized over the life of the lease, including the expected renewal periods, or the life of the improvements, whichever is less.

Capital leases:

Leases which meet the capital lease criteria under the Leases Topic of the FASB Accounting Standards Codification are recorded as assets and obligations at the lesser of the present value of the future rental payments or the fair value of the leased property at the inception of the lease. Amortization of equipment under capital leases has been provided using the straight-line method over the term of the leases, and is included in depreciation expense in the accompanying consolidated financial statements.

Refundable advances:

Refundable advances of the System represent short-term overpayments received for contracted services and amounts owed back to funding sources for audits and rate modifications.

Derivative financial instruments:

The System has entered into interest rate swap agreements for the purpose of reducing the impact of changes in interest rates on variable rate long-term debt. Derivative financial instruments are utilized to reduce interest-rate risk and are not held for trading purposes. The System records all interest rate swap agreements in the consolidated statements of financial position at fair value. The fair value asset (liability) of the interest rate swaps were \$(15,145) and \$550,396 at June 30, 2019 and 2018, respectively, and were included in prepaid and other assets on the consolidated statements of financial position. Changes in the interest rate swap agreements fair value is recognized in the consolidated statements of activities and changes in net assets as additional interest expense or a reduction of interest expense, which amounted to an unrealized gain (loss) of \$(565,541) and \$527,454 for the years ended June 30, 2019 and 2018, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Net assets:

The System is required to report information regarding their financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions. Net assets with donor restrictions are those whose use has been limited by donors to a specific time period or purpose.

The System's Board of Governors has designated, from assets without donor restrictions, net assets for long-term investment purposes amounting to \$4,720,623 and \$4,714,623 as of June 30, 2019 and 2018, respectively.

Operating and non-operating activities:

Operating activities are those that occur in the normal course of business operations for the current period. Non-operating activities include investment income (loss) (net of which has been designated for operations) and activities that are unrelated to the current time period or to normal operations, including pension related changes relating to other than net periodic pension cost.

Program-related revenues:

Revenue under most contracts and grants with various authorities (principally governmental agencies in New York State) is recognized as the services are performed. These program-related revenues are categorized in the accompanying consolidated financial statements under the New York State department that is responsible for the regulatory oversight of the related programs. Certain rates under such contracts and grants are subject to audit by the contracting authority. Rate modifications for prior fiscal years are reported as an adjustment to non-operating miscellaneous income (expense) in the year realized in the accompanying consolidated statements of activities and changes in net assets.

The System has contracts with third-party payors, which provide for reimbursement to the System at established rates. The primary payor for these contracts (including but not limited to contracts with New York State funding sources of the Office of People with Developmental Disabilities, the Office of Mental Health and the Office of Children and Family Services) is Medicaid, which accounted for approximately 31% and 34% of total operating revenue for the years ended June 30, 2019 and 2018, respectively. The laws and regulations under which the governmental funded programs operate are complex, subject to frequent change and are open to interpretation. At present, there are significant initiatives underway at both the Federal and New York State levels to eliminate and prevent fraud, waste and abuse in governmental funded programs. Such initiatives include governmental authorities, or their representatives, conducting various types of reviews of organizations that bill governmental payors. These reviews are being conducted to determine if the organization is following appropriate regulations and procedures including having adequate documentation for its billing activities. In cases where an organization's billing documentation or procedures are deemed deficient, the authorities could seek to recover related funds received from the governmental authorities. Therefore, as part of operating under governmental funded programs, there is a possibility that such authorities may perform this type of review of the System. Although no assurances can be given, management believes they have complied with the requirements of the various governmental funded programs they operate under.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Program-related revenues (continued):

Reimbursement rates established by Federal, state and county funding agencies are subject to audits and retroactive adjustments by third-party payors. An estimate of the provision for audit and retroactive adjustments are recorded in the period that the adjustments can be reasonably estimated, with any adjustments to the estimate recorded when the approved rate is received by the funding source.

<u>Contributions</u>:

All contributions are considered to be available for unrestricted use unless specifically restricted by a donor. Contributions received and unconditional promises to give are measured at their fair values and are reported as an increase in net assets. Conditional pledges are recognized as revenue when the stipulated conditions have been met.

The System reports gifts of cash and investments as support with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, the related net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of activities and changes in net assets as net assets released from donor restrictions.

The System reports gifts of land, buildings and equipment as support without donor restrictions unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the System report expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Donor restricted contributions whose restrictions are met in the same reporting period are reported as support without donor restrictions in the consolidated statements of activities and changes in net assets.

Investment income:

Investment income and gains and losses from the sale or other disposition of investments are accounted for in accordance with specific donor instructions. In the absence of such instructions, investment income and gains and losses are accounted for in net assets without donor restrictions. Interest and dividend income are recognized as earned. Gains and losses on security sales are determined based upon the average cost of the security within the respective net asset portfolio.

Under an investment spending policy established by the System's Board of Governors, the System utilizes 5% of the average invested balance of the prior 20 quarters to support its programs. This amount is presented as investment income designated for operations within public support and the remaining net investment income is presented as a component of increase (decrease) in net assets from non-operating activities as investment income (loss) net of investment income designated for operations in the consolidated statements of activities and changes in net assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Grant to others:

During the years ended June 30, 2019 and 2018, the Foundation granted \$1,508,339 and \$1,221,539, respectively, to meet the matching requirements for certain programs which require philanthropic support in order to leverage other funding sources. The grant is classified within operating activities in the accompanying consolidated statements of activities and changes in net assets.

Endowments:

New York State Prudent Management of Institutional Funds Act (NYPMIFA or the Act), New York's version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), governs the management and investment of funds held by not-for-profit corporations and other institutions. The Board of Trustees of the Foundation has interpreted the Act as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds which is prudent, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not retained in perpetuity is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by NYPMIFA.

When making a determination to appropriate or accumulate donor-restricted endowment funds, the System considers the following: the duration and preservation of the fund, the purposes of the System and the donor-restricted endowment fund, general economic conditions, the possible effects of inflation and deflation, the expected total return from income and the appreciation of investments, other resources of the System, where appropriate and circumstances would otherwise warrant, alternatives to expenditure of the endowment fund giving due consideration to the effect that such alternatives may have on the System and the investment policies of the System.

The System has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to the System while seeking to maintain the purchasing power of the endowment assets. The donor-restricted endowment funds are held in one of its multipurpose investment portfolios. Under this policy, as approved by the Board of Governors, the endowment assets are to be invested in a manner that is intended to achieve returns, net of fees, in excess of a relevant balanced benchmark as defined by the target asset allocation while assuming a moderate level of investment risk.

The Board of Trustees will review the fund's performance at least annually and will appropriate for distribution an amount it feels appropriate. Annual endowment fund spending may not exceed 100% of the fund investment income accumulated since the last distribution plus any investment income not distributed in the preceding years and may not exceed 5% calculated on a twenty rolling quarter average of the net value of the endowment, at its current balance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Endowments (continued):

The Foundation's objective is to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

From time-to-time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or relevant law requires the System to retain as a fund of perpetual duration. In accordance with U.S. GAAP, deficiencies of this nature are reported in net assets with donor restrictions to the extent accumulated gains are available to absorb such loss, otherwise as net assets without donor restrictions. There were no deficiencies of this nature for the years ended June 30, 2019 and 2018.

Methods used for allocation of expenses between program and supporting services:

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The significant expenses that are allocated include fringe benefits, which are allocated based on salary costs, property and equipment costs (depreciation, interest on debt-financed property and property and vehicle insurance) and occupancy costs (maintenance salaries and fringe benefits, utilities, repairs and maintenance, and maintenance supplies), which are allocated based on square footage and food related costs which are allocated based on number of meals served. Most salaries and benefits are direct charged to programs and supporting activities. Approximately 8.2% of salaries and benefits are in support services and are allocated based on time studies performed.

Interest expense:

Interest expense is a recurring cost incurred in normal business operations and, accordingly, is presented within operating expenses in the accompanying consolidated statements of activities and changes in net assets.

Income taxes:

The System (the Corporation and each of its affiliates) is tax exempt from taxation under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision has been made for income taxes in the accompanying consolidated financial statements. The Corporation evaluates its positions taken for income tax purposes, including its continued compliance with the requirements of its exemption under Section 501(c)(3).

It is highly certain that some positions taken for income tax purposes would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The Corporation is not aware of any uncertain tax positions as of June 30, 2019 and 2018.

The tax returns for the years ended June 30, 2016 through June 30, 2019 remain subject to examination by the Internal Revenue Service for Federal tax purposes and also by New York State for state tax purposes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Use of estimates:

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent accounting pronouncements:

The following recently issued accounting pronouncements by the Financial Accounting Standards Board (FASB) represent those considered relevant and potentially significant to the System:

In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in GAAP when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. In August 2015, the FASB issued ASU 2015-14 which defers the effective date of ASU 2014-09 one year making it effective for the year ending June 30, 2020 for the System. The System does not expect the ASU to have a significant impact on the System's revenue recognition policies and, as a result, does not expect the implementation of the ASU to materially affect the consolidated financial statements.

In June 2018, the FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The standard provides clarified guidance on evaluating whether transactions should be accounted for as contribution (non-reciprocal transactions) within the scope of Topic 958 Not-for-Profit Entities, or as exchange (reciprocal) transactions subject to other guidance, and determining whether the contribution is conditional. ASU 2018-08 will be effective for the System for the year ending June 30, 2020. The System does not expect the ASU to have a significant impact on the System's revenue recognition policies and, as a result, does not expect the implementation of the ASU to materially affect the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. ASU 2016-02 will require an entity to recognize assets and liabilities for leases that are longer than 12 months including operating leases existing at the date the standard becomes effective. ASU 2016-02 must be adopted by the System for their year ending June 30, 2022, although earlier application is permitted. As disclosed in Note 8, the expected future payments on operating leases are \$1,682,040. The new standard will require the presentation of these leases in the statement of financial position. The System does not expect a material impact on the consolidated statement of activities and changes in net assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies (Continued)

Recent accounting pronouncements (continued):

In March 2017, the FASB issued ASU 2017-07, *Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.* ASU 2017-07 requires that an entity report the service cost component of net periodic pension and postretirement cost in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The remaining components of net benefits costs are required to be presented in the consolidated statement of activities and changes in net assets separately from the service component and outside a subtotal of revenue from operations, if one is presented. The amendment further allows only the service cost component of net period pension and postretirement costs to be eligible for capitalization. ASU 2017-07 must be adopted by the System for their year ending June 30, 2020, although earlier adoption is permitted. As the plan is frozen, the System does not expect the ASU to materially affect the consolidated financial statements.

Note 2. Liquidity Information

As part of the System's liquidity management practice, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. The System has financial assets of \$45,545,883 available within one year of the consolidated statement of financial position date to meet the cash needs for general expenditure. The financial assets consist of the following:

Cash	\$ 960,136
Receivables expected to be collected within one year	26,231,423
Investments	26,322,764
Less:	
Investments pledged as collateral	(5,247,817)
Investments subject to board designation	 (4,720,623)
Total financial assets	\$ 45,545,883

The System has agreements with a syndicate of banks for a maximum borrowing capacity of \$18,000,000 on a revolving line of credit, which could be drawn upon in the event of an unanticipated liquidity need. There was \$8,000,000 outstanding at June 30, 2019.

The System also has agreements with a syndicate of banks for delayed draw term loan facilities, which could be drawn upon to fund capital expenditures. The remaining capacity on these facilities is \$4,895,325 as of June 30, 2019.

Note 3. Investments (Continued)

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation uses an advisor to manage capital with unique liquidity, risk and spending considerations of non-profit institutions in mind to deliver at least 5% per annum over multiple market cycles, net of inflation and fees.

Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the investment balances and the amounts reported in the consolidated statements of financial position.

The System had no unfunded commitments related to investments carried at NAV at June 30, 2019 and 2018.

Note 4. Endowments

The System's endowment assets include those assets that the System must hold in perpetuity or for a donor-specified period(s). Changes in endowment net assets as of and for the years ended June 30, 2019 and 2018 is as follows:

Recurring depreciation expense for the System, excluding accelerated depreciation on assets to be disposed, was \$5,817,090 and \$5,890,567 for the years ended June 30, 2019 and 2018, respectively.

During March 2019, the System decided to begin the transition of services provided at its Varick, New York residential campus ("Varick campus") to other System facilities with closure of the Varick campus to occur during the fiscal year ending June 30, 2020. As a result of this decision, the System revised its estimate of the useful lives of certain leasehold improvements and furniture, fixtures and equipment in use at the Varick campus to coincide with the planned closure. This change in estimated useful lives resulted in acceleration of depreciation of \$4,248,646, which is presented in the consolidated statements of activities and changes in net assets as depreciation on assets planned for disposal - non-recurring. Property and equipment – net related to the Varick campus was \$382,833 and \$5,366,628 at June 30, 2019 and 2018, respectively.

Note 10. Employee Retirement Plans

Defined benefit plan:

The System has a noncontributory defined benefit plan (the Plan), which covers substantially all employees of the System. The Plan provides benefits based upon compensation, age and years of service. The System's funding policy is to meet the minimum funding requirements required by the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 31, 2012, the Plan was amended to freeze benefit accruals for service and transition credits and prohibit new employees from entering the Plan. Participants will continue to earn years of service to satisfy vesting requirements and interest credits will be earned on participants' cash accumulation accounts.

Note 10. Employee Retirement Plans (Continued)

Defined benefit plan (continued):

The investment policies and individual decisions are made for the exclusive benefit of the Plan participants, consistent with ERISA and regulations thereunder. Total long-term investment returns are optimized against risk in a manner that reasonably protects benefit requirements and timely cash payments. The policy establishes target allocations for diversification and investment performance over a time line that mirrors liabilities. It also limits exposure to quality and concentration risks.

The Plan's weighted-average asset allocations at June 30, 2019 and 2018, by asset category, are as follows:

		2019	
	Actual Allocation	Percentage Allocation	Target % Allocation

Note 10. Employee Retirement Plans (Continued)

Defined contribution plan:

The System offers a voluntary 403(b) plan, which is available to all employees of the System. The System matches a percentage of employee contributions into the plan. The employer match that is made into the plan is at the discretion of the System. The System's matching contributions to the 403(b) plan were \$935,670 and \$1,844,514 for the years ended June 30, 2019 and 2018, respectively.

Other postretirement benefits:

The Center provides postretirement health care benefits to a select group of employees (once employed by an affiliated entity prior to acquisition by the Center) who retire after age 62 with 10 or more years of service or after age 55 with 20 or more years of service. The Center continues full coverage for the employee at the Center's expense. For those retirees separating from employment prior to January 1, 1997, the employer covers full premiums throughout the retired employee's lifetime. For employees retiring after that date, the Center covered full premium expenses through 1997, 50% of the increase in premium increases. Life insurance benefits equal to 25% of final annual rate of pay, but not more than \$25,000, are provided for employees who retire after age 62, with five or more years of service, or after age 55, with 20 or more years of service. The life insurance benefit is available only to employees hired before January 1, 1989. The accrued cost recognized in the consolidated statements of financial position was \$411,580 and \$438,919 at June 30, 2019 and 2018, respectively.

Note 11. Commitments and Contingencies

Legal matters:

The System is a defendant in various legal actions arising in the normal course of business. It is management's opinion that the actions are either without merit or that settlements which arise, if any, will be covered by insurance, or not have a material impact on the System's operations.

Self-insurance:

The System self-insures workers' compensation benefits for its employees and health care benefits for its participating employees and dependents. The System maintains excess insurance coverage for certain major claims. The System's related liabilities and costs as of and for the years ended June 30, 2019 and 2018 are as follows:

	2019	2018
Workers' compensation expense (including assessments		
and administrative fees)	\$ 1,831,836	\$ 1,439,801
Workers' compensation liability	\$ 2,905,500	\$ 2,940,306
Health insurance expense	\$ 8,909,064	\$ 8,764,000
Health insurance liability	\$ 622,600	\$ 595,100

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 11. Commitments and Contingencies (Continued)

The System's liabilities noted above are recorded within accrued expenses and other liabilities in the consolidated statements of financial position. The System's expenses noted above are recorded within employee benefits in the consolidated statements of functional expenses.

The New York State Workers' Compensation Board required the System to obtain a bond in the amount of \$2,000,000 at June 30, 2019. This bond was provided by the System's excess workers' compensation insurer, who required that the System obtain an irrevocable letter of credit in the amount of \$2,000,000 at June 30, 2019 which expires February 2020.

Note 12. Related Party Transactions

The System uses a centralized cash operation in order to share efficiencies in cash transactions, as well as access to the System's line of credit as needed. At any point in time, affiliates may be in a positive or negative cash position related to other affiliates in the System, represented as net interaffiliate payable or receivable.

Note 13. Subsequent Event

Subsequent to June 30, 2019, Stillwater Children's Center and Snell Farm Children's Center merged with the Center, with the Center as the surviving entity and the Center acquired the assets and liabilities of Hillside Work Scholarship Connection. As all entities are under common control, the Center, as the surviving entity, accounted for the acquisition of the related parties at net book value, with no gain or loss to be reflected in the June 30, 2020 consolidated financial statements.

Subsequent events have been evaluated through November 1, 2019, which is the date the consolidated financial statements were available to be issued.
